

# We Do More...Cable Harness

## Cable & Wire Harness

- Flat Ribbon Cables
- Grounding Cables
- RF Cable Assembly
- Fiber Optics
- Wire Harness
- Discrete Harness
- Power Cords

## Cable Testing

- Point to Point
- Full System Testing
- Black Box Testing

## PCB Fabrication

- Rigid Boards
- Flex Circuits
- Rigid Flex
- RF/Microwave specialists

At Transline Technology, we are recognized for the outstanding quality of the wide variety of rigid printed circuit boards we manufacture, particularly those with RF and Microwave applications.

But, did you know we also make Flex and Rigid-Flex boards as well as offer Metal Etching services and Cable Harness and Box-Build.

We invite you visit our freshly-designed website to explore the full line of products and services we offer. Many of our customers enjoy the convenience and cost savings of using one supplier for multiple services.

For instance, some of our RF/MW customers may order EMI shields along with their PCBs. Others may ask us to bond a stiffener or heat sink to a PCB that we have manufactured.

So, give us a second look, you may be surprised to see all the ways we can do more...so you don't have to!
